Local senates should develop a high school articulation and credit by exam policy that is consistent with current language in Title 5; further, that policy school facilitates the awarding of credit and not imposes unnecessary barriers.</li> <li>2. Community college personnel who are assigned to facilitate articulation relationships should work with their high school counterparts to communicate the details of the process by which credit by exam is awarded and provide them an opportunity to opt-in or out.</li> <li>3. Community college articulation policies and practices should not require residency priority to the awarding of credit for articulated high school work.</li> <li>4. Because articulation and credit by exam processes are complex and ever-evolving and college [add ‘and secondary’] personnel are constantly turning over, ongoing professional development of college and high school personnel is necessary to ensure the success of these efforts. Colleges should support local and regional activities that both inform participants and provide opportunities for them to build these pathways.</li> <li>5. In order to ensure that credit is awarded for articulated high school work when warranted, every college [add ‘and secondary institution’] should have a designated individual or individuals who facilitates both the establishment of articulation and the credit by exam process. <ul style="list-style-type: none"> <li>• SB 1070 Articulation Analysis &amp; Next Steps Handout (Will post with minutes)</li> <li>• Add post its to suggestions sheets</li> </ul> </li> </ol> <p>c.
